The Big Green Book

Welcome to the Travel Well Edition of The Big Green Book!

Originally created for the GreenSpace green social prescribing project, the Big Green Book links you with nature-based activities in your community and this special edition is all about unleashing the active traveler in you. Healthcare professionals and social prescribing teams can connect you with friendly, community-based teams and activities promoting walking, cycling, and wheeling. It's all happening in the heart of Aspley Estate, Broxtowe Estate, Beechdale, Bells Lane Estate, Bilborough, Strelley Estate, Bulwell, Bulwell Hall, Snape Wood, Crabtree Farm, Highbury Vale, Sneinton, and St Ann's!

This edition is your guide to a world of active travel and green activities. We're talking about a journey where movement meets nature, and where every step and pedal push comes with a dose of good vibes and friendly faces to support you as you embrace a more active lifestyle.

Our hope? That this book inspires you to ditch the couch, get outside and dive into a world of walking, cycling, and wheeling with new friends and old. Trust us; the benefits are not just physical – they're a game-changer for your everyday life and mental wellbeing. So, get ready to Travel Well!

GreenSpace Trusted Providers

If an organization has the GreenSpace Trusted Provider logo, that means they have been through the process of joining the GreenSpace green social prescribing project and have demonstrated that they have all the necessary policies, procedures and insurance in place and have identified the level of need that they are able to support. The level of support that they are able to provide is identified using Mental Health Levels on the next page and you should refer to these levels before linking a client with an activity to make sure that you are making an appropriate connection.

If a client is interested in joining any of these activities, as a referrer we suggest you contact the organisation directly to make your own checks and build your own connections before linking a client to that activity.

Please note: All information is correct at the time of publishing. The Big Green Book will be updated regularly. If you find that there is anything incorrect, or if you have any feedback or update requests, please contact the team by emailing: travelwell@nottinghamcvs.co.uk

What do you need to know about the Mental Health Levels?

Finding an activity for yourself:

The Mental Health Levels below were developed with the GreenSpace Mental Health Lead so that groups could show the different needs they are able to support. When you are choosing an activity, use the level to help you work out whether this group has the support in place that will help you. If you consider yourself to have a higher level of need, you may be able to attend an activity with a carer or support worker, please contact the organisation directly to discuss your needs before attending for the first time.

Level Zero: This activity is for you if...

- You are feeling well
- You want to look after your mental and physical health
- You want to try a green or nature-based activity

Level One: This activity is for you if...

- You are seeing your GP about your mental health or are having some support from a health worker or social prescriber
- You feel lonely, you have a low mood and/or lack of motivation/structure/routine
- You are experiencing symptoms of anxiety and/or mild depression
- Your mood/feelings are having a negative effect on your wellbeing

Level Two: This activity is for you if...

- You are currently getting support from your GP and receiving psychological therapies, such as cognitive behavioural therapy (CBT) or counselling
- You are taking short term medication and/or under ongoing monitoring, and this support is helping you to manage your mental health
- You feel a 'Green Buddy' would help you to go along to the first couple of sessions and to help you settle in
- You need specific sessions are designed to include more support or have a specific focus on wellbeing
- You would benefit from a volunteer to help you or work alongside you during the sessions to help you feel more comfortable and at ease in the group
- You have identified recovery goals with your health care professional that you can work towards during the activity

Level Three: This activity is for you if...

- You have complex needs and need more than one area of support, including specialists and local mental health team
- You need support to take part in sessions (if you have a support worker then they can attend with you)
- You need a short-term programme of activity, or a package tailored to meet your individual needs
- You need support from a team that specialises in working with people who have long-term and/or complex mental ill health

Level Four: This activity is for you if...

- You are experiencing an acute mental health crisis which requires you to receive inpatient or intensive crisis team support
- OR
- You have a long-term serious mental illness, and you need regular care and support
- You need an activity in a hospital-based location, such as a hospital community garden or therapy garden
- You need an activity provided by a specialist team that will make sure you get the help and support you need to get the most out of the sessions (this might include doctors and nurses and other people who have expertise in working with people with a range of complex mental health needs, both long-term and acute)

Pregnant

For greater comfort, try a step-through frame, a folding bike, a more upright Dutch-style bike or an e-bike.

Cargobike

Babies can travel in carseats, alongside bigger children of any age. This is the most flexible but greatest investment.

Twins or a baby and a toddler

Double trailer with baby support inserts, (weight limit 45kg).

One baby under 9 months

Babies of any age can travel in a single/slimline trailer, with baby support inserts, (up to 9kg).

9 months – 5 years

A baby who can sit up unaided (normally at 9 months and 9kg) can use a rear mounted child seat (weight limit normally 9-22kg). Choose one that reclines for naps.

9 months – 4 years

Child seat on front of bike, (weight limit normally 9-15kg).

Baby/toddler and child who can pedal

Combine a front seat on your bike and a tag-along. You can use a front seat and rear seat attached to a normal bike, too.

4+ years

A child who can balance and pedal can use a tag-along or trailer bike.

Tandem

A child who can balance and pedal can use a tandem. You can also attach childseats to some models.

School aged children

Once they are confident you can cycle on separate bikes. Start on traffic-free routes, then encourage your child to do Bikeability levels 1, 2 and 3.

Facilities:

If you have any mobility or accessibility needs, please contact us before visiting so we can discuss accommodations.

Getting Here:

Bus: Take NCT 77 bus from the city centre to Ascot Road stop, or NCT 78, 79 or Rainbow 1 to Aspley Lane.

Foot/Bike/Car: On Alfreton Road, cross the Bobbersmill bridge and turn first left at the traffic lights onto Aspley Lane, then immediate left onto Ascot Road. For satnavs, use NG8 5HD.

If on bike or foot, once on Ascot Road, continue past the yellow bollard. If travelling by car, once on Ascot Road, park near the bollard or call us if you need us to drop the bollard so you can park closer to the garden. Follow the track around the corner, look for our sign on the gate ahead.

You can also access the site from New Road in Radford, take the right fork and follow the track, then the green path. We are the last allotment on the right.

Opportunities to Socialise: We'll always have a cup of tea and a friendly chat. There are opportunities to join the garden as a volunteer and we'd like to help people find other similar projects to get involved with.

Standing in this place

An arts and heritage project by sculptor Rachel Carter in collaboration with the Legacy Makers group formed in 2014 by Bright Ideas Nottingham and the collaborative community-academic Global Cotton Connections project.

It looks to highlight the contributions and connections between white mill workers and black enslaved women uprooted to the Americas, showing how their stories and histories are connected by cotton, sorrow, strength and resilience.

The sculpture amplifies the connections between the cotton industry and the transatlantic slave trade in a city renowned for its lace industry.
